

Peer Mentoring Opportunities Available!

***Mentors and Mentees
Wanted!***

At NU, we are proud to have a diverse population of students. **We want all of our students to get the most out of their experience and feel like a valued part of our family.**

Some students – particularly those with autism- sometimes need support navigating the unstructured social aspects of campus.

The Office of Disability Services is coordinating a peer support program to ensure that all of our students have opportunities to experience the best that NU has to offer.

***Please consider getting involved as a
mentor or a mentee!***
