

PRESERVING JEWISH CULTURAL HERITAGE IN PRZEMYŚL, POLAND

Przemysł, Poland

Przemysł is a small Polish city along the Ukraine border, and its rich multicultural traditions were disrupted by the transformative effects of World War I and World War II. Dr. Andrew Wise will discuss how various peoples coexisted in the early 20th century as a background to the situation today. He will also share how students, scholars, philanthropists, and community activists have worked together since 2013 to map the extant Jewish cemetery in Przemysł.

Dr. Andrew Kier Wise is Professor of History at Daemen College. His publications deal with various aspects of Polish and Russian history.
