

Diversity in Science Seminar Series

# “Chronicling the History of Black Birth to Analyze and Re-Create Our Current System of Care”

Sponsored by the Biology Department,  
the Ostapenko Center for Race, Equality and Mission and  
the Ostapenko Center for Ethics in Medicine and Healthcare

Ngozi Udo (She, Her, Hers) has had a lifelong passion for racial, reproductive, and economic justice for women and girls. She currently works as a Maternal Child Health Educator and Research Coordinator for the Healthy Baby Network. Her presentation will take a deep dive into the history of birth, the evolution of race as a driver of health status, and review evidence based practices that can be used to identify, respond, and react to the origins of biases in our policies and how they manifest in our day to day interactions with fellow students, colleagues, and within our community.

**Tuesday February 25<sup>th</sup>**  
**5:15pm-6:30pm**  
**Castellani Art Museum**

**Light refreshments will be provided**
